Summary

I'm a third-year CSE student specializing in cybersecurity with a focus on offensive security. I have hands-on experience in penetration testing, CTFs, and Agentic AI security research. I hold the **eJPT** certification and am further developing my web application security skills through HTB's **CWES** path. I have knowledge of **Machine Learning** and **Deep Learning**, with a growing interest in AI security. I aim to apply and expand my offensive security skills through real-world challenges.

Experience

Cybersecurity Domain Core member

Google Developer Groups (GDG)

IIIT Sri City

Jun 2025 – Present

- Mentoring students in the domain of cybersecurity through sessions and workshops.
- Developing Capture-the-Flag (CTF) challenges.

Cybersecurity Domain Core member

IOTA

IIIT Sri City

Jun 2025 – Present

- Conducted a technical session on steganography and cybersecurity applications.
- Contributed to cybersecurity initiatives, workshops, and collaborative technical projects within the club.

Education

Indian Institute of Information Technology Sri City

B.Tech (Hons.) in Computer Science Engineering

Aug 2024 – Expected 2028

Technologies

Skills: Assessment Methodologies, OSINT, Vulnerability Assessment, Penetration Testing, Privilege Escalation, Network Security, Web Application Security, Reporting, Steganography, Machine learning, Deep learning

Languages: Python, C, C++, Bash

Tools: Nmap, Wireshark, The Metasploit Framework, SQLMap, Burp Suite, GoBuster, Mimikatz, Scikit-learn, PyTorch, Keras

Others: Windows(proficient), Linux(proficient)

Certifications

eLearnSecurity Junior Penetration Tester (eJPTv2)

[See Credential](#)

Issued June 2026

Other Experiences

Attended Pycon 2025 India

- Gained exposure to Python ecosystem trends, open-source development, and industry best practices.
- Participated in technical talks, networking sessions, and workshops focused on Python, AI/ML, cybersecurity, and software engineering.

Abhisarga'26 member

Hospitality team member

IIIT Sri City

- Assisted in guest coordination, participant support, and event management activities
- Collaborated with team members to ensure smooth event operations, hospitality arrangements, and effective communication with attendees and organizers.
